

Automated External Defibrillator User Course (AED) Description

Aims & Objectives

The aims and objectives of the Automated External Defibrillator User Course (AED) is to equip the attendees with all the skills and knowledge required to recognise the need for using the AED and how to use this life saving piece of equipment in an emergency.

General Information

Maximum of 6 attendees per instructor

Course Duration

3 Hours

Delivery Technique

This course is delivered via a range of techniques including:

- ❑ Instructor led presentation
- ❑ Group discussion
- ❑ PowerPoint

The amount of different methods of presentation is flexible to suit the needs of the group.

Course Assessment

This course is subject to ongoing assessment by the instructor throughout the course. There is no final assessment. The instructor observes attendees practice sessions as the training progresses to ensure the required level of understanding.

Course Certification

All successful attendees will be awarded a certificate which will be valid for six months.

What do I need to host this course on site?

- ❑ A room that will comfortably seat your amount of attendees.
- ❑ An AED unit to demonstrate (our instructors can bring a machine, however it may well not be the same model as yours)
